In his great Tariff speech in the Senate the Hon. ROGER Q. MILLS displayed such proficiency as a demagogue that all the little Democratic Editors, prairie dog fashion, are sitting up on their haunches and chattering like a colony of chimpanzees.

The paragraphs printed in small type are extended from the knock-down argument of the great Texas Free-trader:

In one ton of steel rails the labor cost is \$3; the Tariff is \$13.44.

This is so transparently silly that it is scarcely worth noticing. Before a ton of steel rails can be manufactured several tons of ore and coal and limestone must be taken from the earth and transported to the furnace—often miles away—and this has to be reduced to pig metal, which in turn must be transformed into steel and rolled into rails. To say that the cost of all this is only \$3 is so absurd that no one with a grain of sense will believe it.

In \$100 worth of cutlery the labor cost is \$44.24; the Tariff is \$89.11.

The Tariff is a Tax.

Here MILLS makes the labor cost \$44.24 and the Tariff \$89.11, a total of \$133.35, and yet he sells the product for an even \$100! The \$24.35 must be seigniorage.

Yes; the Tariff is a Tax!

In \$100 worth of mats and mattresses the labor cost is \$34.90; the Tariff is \$68.59.

The Tariff is a Tax.

Not so much seigniorage here, but still \$100 worth of goods go for \$34.90 less than cost. No wonder the factories are closed and closing.

Yes; the Tariff is a Tax!

In \$100 worth of silk piece goods the labor cost is \$23.34; the Tariff is \$99.

The Tariff is a Tax.

This is better; for the "robber baron" actually gets \$17.46 more than cost for this \$100 job lot.

Yes; the Tariff is a Tax!

In \$100 worth of cigars and cigarettes the labor cost is \$34.51; the Tariff is \$125.98.

The Tariff is a Tax.

Geewhikers! No wonder the darkey dudes have all taken to cigarettes! Mr. MILLS figures out that they sell for \$59.87 less than actual cost.

Yes; the Tariff is a Tax!

In \$100 worth of woolen or worsted cloths the labor cost is \$20.85; the Tariff is \$100.02.

The Tariff is a Tax.

Why shouldn't wool be on the free list when the "robber baron" is now forced to sell for \$100 that which MILLS says cost him \$122.87?

Yes; the Tariff is a Tax!

In \$100 worth of pottery the labor cost is \$45.99; the Tariff is \$60.

The Tariff is a Tax.

Here's another seigniorage of \$5.96—the amount of cost above selling price.

Yes; the Tariff is a Tax!

In \$100 worth of pearl buttons the labor cost is \$39.09; the Tariff is \$143.61.

The Tariff is a Tax.

No wonder there was such a vehement howl about the pearl button industry. How it must gall the bloated manufacturers of these useful little things, which old bachelors have such a hard time to keep on their shirts, to pay out \$183.30 for enough of them to sell for \$100!

Yes; the Tariff is a Tax!

In \$100 worth of tannin the labor cost is \$16.34; the Tariff is \$119.47.

The Tariff is a Tax.

No well regulated Democrat should be without a good supply of tannin, and for salubrious purposes Mr. MILLS has us for much of it. The Tariff on \$100

worth is \$119.47, and yet it sells for \$100. What becomes of the \$19.47, ROGER?

Yes; the Tariff is a Tax!

In \$100 worth of cotton goods the labor cost is \$24.24; the Tariff is \$75.75.

The Tariff is a Tax.

Here's another item where the manufacturer gets in his good work. He makes a clean scoop of \$18.68 on his cotton deal; but "cotton deals" always were profitable.

Yes; the Tariff is a Tax!

In \$100 worth of linen the labor cost is \$32.92; the Tariff is \$50.

The Tariff is a Tax.

More good news for the manufacturer. He makes \$17.08 on this \$100 worth. Of course he stole the material.

Yes; the Tariff is a Tax!

In \$100 worth of common window glass the labor cost is \$38.09; the Tariff is \$98.30.

The Tariff is a Tax.

When it comes to window glass, you can "see through it." Here's a product that cost the robber baron for labor and Tariff \$151.48, and yet, according to MILLS the Free-trader, he sells it for \$100.

Yes; the Tariff is a Tax!

In a ton of coal the labor cost is from 40 to 50 cents; the Tariff is 75 cents. In one ton of pig iron the labor cost is \$1.50; the Tariff is \$8.72. In one ton of bar iron the labor cost is \$4.57; the Tariff is \$52.98.

The Tariff is a Tax.

What was said of steel rails is measurably applicable to the last three items.

The foolish declarations of Mr. MILLS can be explained only upon the ground that he uses too much sugar in his'n.

He should lose no time in following his own advice:

"Go soak your head."

When it is remembered that ROGER Q. MILLS represents a bankrupt state,—bankrupt in everything but its hundred thousand Democratic majority,—it is time to stop and consider whether he is the man to map out a policy for the remaining states of this Union.

Again we say—

The Tariff is a Tax!

And again—

"Go soak your head!"

A NEW DEAL NEEDED.

The Democratic Senate can play poker better than it can legislate, but Tariff making is not a game of bluff.

ODD.

St. Louis Globe-Democrat.

It is singular, to say the least, that no Democratic Senator has yet spoken in favor of the Wilson Bill without saying that it is in some respects unsatisfactory to him.

INTERESTING FACTS ABOUT OCEAN TRAVEL.

Chicago Record.

It is a melancholy fact that last year 379 people died on the steamers en route from Europe to the United States. It is shown by the same report that 90,678 citizens of the United States returned to this country from foreign lands during the fiscal year ending June 30th, 1893, of whom 54,055 were men, 36,623 women. It is also shown that the number of visitors who arrived in this country during the same period, not intending to remain, was 40,750. This does not include all the visitors to the World's Fair, because it covers the period only to the end of June.

EVEN HIS ENEMIES PRAISE HIM.

Dr.oklyn Eagle (Dem.)

Gov. McKinley is an able man, a clean man, a strong man, and when he takes the platform he makes issues on which the people can pass clearly whether they like them or not. The foremost exponent of the Protection principle, he has done more than any other statesman of the period to sustain it by solidity of argument and effectiveness of appeal. In sincerity and courage of conviction he has never wavered. Because of these facts and wide spread impression that the country may reverse its position on the Tariff in the next Presidential election, Mr. McKinley has come to be known as the "logical" candidate of his party.

There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have been using it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and Pain Balm is the best liniment I have ever met with. W. B. Denny, dairyman, New Lexington, Ohio. 50 cent bottles for sale by Theo. C.
